WHAT YOU'RE GETTING

AN AI EDITING TEAM ON YOUR OWN MAC

You talk to it in plain English through the Claude Code app. No editing software, no timeline, no terminal. HouseJet built it for real estate on top of an open-source editing kit.

CLIPS

ONE RECORDING → A WEEK OF REELS

Captioned, face-tracked to 9:16 and quality-checked for Reels, TikTok and Shorts.

HIGHLIGHTS

Q&AS → YOUTUBE VIDEOS

Mines a buyer Q&A or market update into ranked horizontal videos, then titles and schedules them.

YOUR BRAND

YOUR LOGO, COLORS, BROKERAGE

It interviews you once and bakes it in, so every clip looks like yours, not a template.

HANDS-OFF

IT CHECKS ITS OWN WORK

Six quality checks catch bad framing, audio, captions and weak cuts. A clip that fails doesn't ship.

BEFORE YOU START, YOU NEED 3 THINGS

A MAC

Editing runs on your own computer.

CLAUDE CODE

On a paid Claude plan, Pro or Max.

3 SIGN-UPS

AssemblyAI, Gemini and Groq. Setup walks you through each.

HOW TO SET IT UP

THREE STEPS

1 GET THE CLAUDE CODE APP

Download it from `claude.com/claude-code`, open it and sign in. This one app does everything. There's nothing else to install yourself.

2 PASTE THE SETUP BOX

Start a new chat in Claude Code and paste the box on the next page. It downloads the HouseJet kit and sets up your machine for you.

3 ANSWER ITS QUESTIONS

It asks about your brokerage, market and logo, and walks you through three account sign-ups for transcription. Paste keys only into the private box it opens, never into the chat. Then it makes you a test clip.

TIP If it asks permission to install something, click Allow. It keeps a checklist at the top so you can watch it work.

→ THE BOX TO PASTE IS ON THE NEXT PAGE

STEP 2 · THE SETUP BOX

PASTE THIS INTO CLAUDE CODE

Copy the box into a new Claude Code chat. That's all you type. The HouseJet kit already knows the rest.

✂ COPY THIS WHOLE BOX — PASTE & GO

```
Set up HouseJet Vibe Editing for me on this Mac. I'm a real estate
agent and I'm not technical, so do everything yourself and explain
each step in plain English.

Clone https://github.com/clay624/housejet-vibe-editing.git into my
Documents folder,
then follow its CLAUDE.md, HOUSEJET.md and ONBOARDING.md.

Ask me one question at a time, and finish by making me a test clip.
```

BUILT INTO THE HOUSEJET KIT

A real estate setup interview, Fair Housing checks on every clip, your brokerage name on every clip, and no prices or stats you didn't say on camera.

WHAT IT ASKS YOU

Your name, brokerage, logos, colors, market, who you help, how clips open, your call to action, and your music.

WHAT TO FILM

ONE SESSION. A WEEK OF CLIPS.

Record 30 minutes a week in landscape, on a phone or camera. Talk to one person, answer one question at a time, and pause two seconds between answers so the cuts land clean.

SEGMENT	MIN	WHAT TO SAY	CLIPS
MARKET MINUTE	5	What changed in your area this week, using only numbers you can source.	**1–2**
BUYER QUESTIONS	10	Five real questions buyers asked you this month, each answered in under a minute.	**4–5**
SELLER QUESTIONS	10	Five seller questions: pricing, prep, timing, what to fix before listing.	**4–5**
LOCAL SPOTLIGHT	5	A coffee shop, park or street you love, and why.	**1**

NEVER RUN OUT OF IDEAS

Write down every question a lead asks you during the week. That list is next week's script.

GOT A LISTING?

Film a 2-minute walkthrough in landscape and say "make clips from this." You get a hook clip, a feature clip and a neighborhood clip.

ONCE IT'S RUNNING

JUST TALK TO IT

Open Claude Code in your vibe-editing folder and say what you want. No commands to memorize.

`"make clips from this"`	Drop in a video or YouTube link. Finished clips land in the 20_DELIVER folder.
`"mine highlights from this"`	Turns a Q&A or market update into ranked YouTube videos.
`"post and schedule these"`	Titles your highlights and schedules them to your YouTube channel.
`"make the captions bigger"`	Change captions, cuts, logo or music in plain English. It remembers.
`"how do I…"`	Ask anything. Or open the kit at github.com/clay624/housejet-vibe-editing.

STAY COMPLIANT

01

FAIR HOUSING

Describe the home and the area, never who it's "for." Skip "safe," "family-friendly" and anything about who lives there.

02

YOUR BROKERAGE

Most states require your brokerage name on ads. Keep it on every clip and confirm your state's rule with your broker.

03

LISTING MEDIA

Only use photos and video you shot or have rights to. MLS photos usually belong to the photographer.

04

MUSIC

Royalty-free or licensed only. Unlicensed songs get videos muted or pulled.

Not legal advice. When unsure, ask your managing broker.

YOUR WEEKLY ROUTINE

ABOUT AN HOUR A WEEK

☐	MONDAY	Pick 10 questions from the list you kept last week.
☐	TUESDAY	Record the 30-minute session, then say "make clips from this" and "mine highlights from this."
☐	WEDNESDAY	Watch every clip, run the four compliance checks, and delete any you wouldn't say to a client's face.
☐	WEDNESDAY	Schedule one clip a day for the week.
☐	DAILY	Reply to every comment and DM within the hour. That's where the leads are.

YOU'RE SET

RECORD THIS WEEK.

Everything you make is yours to keep. Stuck? Ask Claude "how do I..." right in the chat.
